Acting Director General of Civil Aviation

Subject: Passenger Information on Samsung Galaxy Note 7

Dear Sirs,

In light of recent incidents and concerns raised by Samsung about its recalled Galaxy Note 7 devices, the Lebanese Directorate General of Civil Aviation advises passengers and crew members to keep these devices turned off and do not charge them while on board the aircraft and do not put them inside the checked baggage. Passengers are also reminded of the need to inform the cabin crew when a device is damaged, hot, produces smoke, lost, or falls into the seat structure.

The Lebanese DGCA also recommends operators to ensure that this information is conveyed to the passengers and crew.

Best regards,

Eng. Mohammad Chehabeddine,
Acting Director General of Civil Aviation
